THE sciences of Chemistry and Medicino have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these l'ILLS have virtues which surpass in precedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their peneand expel disease. They purge out the foul humors which breed and grow distemper, stimulate singgish or disordered organs into their natural action, and impart healthy tune with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful Being sugar-coated, they are pleasant to take; and being purely regetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character s to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have cent me the assurance of their conviction that

A TTENTION, FARMERS!
The IVERSON GRASS SEED, so favorably thown, is thus endorsed by a Farmer of this county; "This grass seed I consider very meritorious, and well worth a fair trial, as the man I got it of says he has cut six to eight tou of hay, at each cutting, four times the same season. The way to cultivate it for seed is to prepare your ground, mark it out twenty inches apart, drill the seed, and cover lightly. The time to sow is from the 1st to the 15th of September. One peck will drill about one-half acre.
